

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

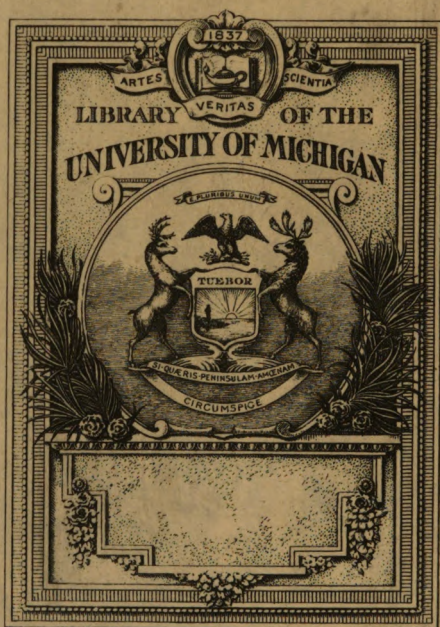

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

OF

NORTH CAROLINA

FOR THE

FISCAL YEAR ENDING NOVEMBER 30, 1897.

RALEIGH

GUY V. BARNES, PRINTER TO GOVERNOR'S COUNCIL

1898

CONTENTS.

BONDED INDEBTEDNESS AND INVESTMENTS OF THE STATE.

Statement showing the bonded indebtedness of the State, also the investments of both the General and Educational Fund. Page XXIV.

GENERAL STATEMENT.

Showing the condition of the State Treasury on the 1st day of December, 1897. Page 1.

STATEMENT A.

Showing sources from which the receipts of the Educational Fund were derived and purposes for which the disbursements were made each month. Page 2.

STATEMENT B.

Showing in detail the sources from which the receipts of the Educational Fund were derived. Pages 3-12.

STATEMENT C.

Showing in detail the different purposes for which the disbursements of the Educational Fund were made. Pages 13-16.

STATEMENT D.

Showing detailed receipts of the Public Fund. Pages 17-81.

STATEMENT E.

Showing detailed disbursements of the Public Fund. Pages 82-199.

STATEMENT F.

Showing monthly receipts and disbursements of the Public Fund. Page 200.

STATEMENT G.

Showing the several sources from which the receipts of the Public Fund were derived. Page 201.

STATEMENT H.

Showing the several purposes for which the disbursements of the Public Fund were made. Pages 203-204.

STATEMENT I.

Showing the amount of receipts and disbursements for each fiscal year from 1868 to 1897, inclusive. Page 205.

STATEMENT J.

Showing amount of Pension Fund, number Pensioners in each county, the various Classes and Amount paid each Class, for 1897; also showing total number and amount paid for general pensions in the State. Page 206-208.

PART TWO.

STATEMENT 1.

Showing the number and value of the different subjects of taxation and gross tax for State, Pension, School and County purposes, also the aggregate value of real and personal property of each county for the year 1896, as per returns on file in this Department. Pages 209-353.

STATEMENT 2.

Showing the aggregate number and value of the different subjects of taxation in the State, and the gross amount of State, School and County Taxes derived from the same for the year 1896. Pages 354-355.

STATEMENT 3.

Showing the number of acres of land, value of land, number acres mineral, quarry or timber interests, value of mineral, quarry or timber interests, value of town lots, aggregate value of land and town lots, number and value of horses, mules, jacks, jennets, goats, cattle, hogs and sheep, value of farming utensils, money on hand, solvent credits, stock in incorporated companies, other personal property; aggregate value of all personal property, and aggregate value of real and personal property in every county in the State for the year 1896. (See folding table.)

STATEMENT 4.

Showing the number of white and colored polls in the several counties in the State for the year 1896. Pages 356-357.

STATEMENT 5.

Showing the gross amount of taxes levied in the various counties, payable to the County Treasurer, during the fiscal year ending November 30, 1896, for school purposes; also giving the sources from which said taxes were derived. This statement also embraces amount of County Taxes levied for general and special county purposes, as per returns on file in this Department. Pages 358-360.

STATEMENT 6.

(Comparative.)

Showing the number of acres of land, number of horses, mules, cattle, hogs, sheep, etc.; also the value of the same, including town property, farming utensils, money on hand or on deposit, solvent credits, etc., in the State for the years 1875, 1876, 1877, 1878, 1879, 1880, 1881, 1882, 1883, 1884, 1885, 1886, 1887, 1888, 1889, 1890, 1891, 1892, 1893, 1894, 1895 and 1896. Pages 361-363.

STATEMENT 7.

Showing the assessment of the property of Railroad, Telegraph, Steamboat and Canal Companies by the Railroad Commission, for the year 1897. Pages 365-370.

STATEMENT 7 (a).

Showing list of counties with railroad mileage and assessed value of railroad property in each county. Pages 371-375.

STATEMENT 7 (b).

Showing list of incorporated towns and assessed valuation of railroad property in each town. Pages 376-382.

STATEMENT 7 (c).

Showing assessment of Pullman's Palace Car Company, the total number of cars required to operate each line through the State, the total value of the cars in each line, the number of miles of each line within the State of North Carolina, and the proportional value of the cars in each line according to the number of miles in North Carolina, with a recapitulation showing the total number of cars operated on each railroad through the State, the total mileage of lines running over such railroad, the total number of cars required to operate them, with the total value of such cars, the total number of miles of all lines running over such roads in the State of North Carolina, and the proportional value of such cars according to the mileage in the State of North Carolina, and the apportionment to the different counties. Pages 383-385.

STATEMENT 7 (d) (e) (f) (g).

Showing assessment of telegraph companies and apportionment of value to counties and towns. Pages 386-390.

STATEMENT 7 (h).

Showing assessment of steamboat and canal property and apportionment of value to counties. Page 391.

STATEMENT 8.

Showing number of miles, value of property and taxes of railroads, and valuation and taxes of steamboats, canals, telegraph lines and Pullman Palace Cars, based upon returns of the Railroad Commission for 1897; the rate of taxation being for General Purposes $21\frac{1}{2}$ cents, and Pensions $3\frac{1}{2}$ cents on each \$100 valuation. (See table.)

STATEMENT 9.

Recapitulation, showing the aggregate value of real and personal property in the State, as per returns on file in this Department for the year 1896, and the aggregate value of railroads, steamboats, canals, sleeping cars and telegraph lines, as per returns from the Railroad Commission for the year 1897. Page 392.

STATEMENT 10.

Showing the aggregate value of real and personal property, including bank stock and railroads, in each county in the State for the year 1895, last assessment (assessment every four years). Also the amount of property listed for taxation by white and colored citizens separately. (See table).

STATEMENT 11.

Showing variation in the aggregate value of real and personal property, including bank stock and railroads, in each county in the State for the year 1896, as compared with the year 1895, last assessment (assessment every four years). Also the amount of property listed for taxation by white and colored citizens separately, as per returns for the year 1896, on file in this Department. (See table).

STATEMENT 12.

Showing names and number of Building and Loan Associations licensed to do business in North Carolina for the year 1896. (See table).

ANNUAL REPORT
OF THE
AUDITOR OF THE STATE,
FOR THE
FISCAL YEAR ENDING NOVEMBER 30, 1897.

RALEIGH, N. C., *January 1, 1898.*

To His Excellency, D. L. RUSSELL,

Governor of North Carolina.

SIR:—In accordance with legal requirement, I have the honor to submit herewith to you, and through you to the General Assembly, the annual report of the financial transactions of the State for the year ending November 30th, 1897.

SUPPLEMENTARY COMMENT.

The cash balance in the hands of the State Treasurer is shown to be \$93,944.47. This Report, however, credits him with two items which have not been paid and are now in litigation, and which, if not collected by the claimants, will stand as a charge against the Treasurer in favor of the State. The items referred to are Warrant No. 11,678 for \$4,851.40, and Warrant No. 11,818 for \$759.75. These warrants were drawn by the former incumbent of this office in the month of December, 1896, to cover alleged bills of cost in what are known as "The Pamlico and Carteret County oyster cases." The State Treasurer declined to honor them on account, in his opinion, of the non-existence of sufficiently explicit and mandatory law to authorize such expenditure of the public fund. If his position shall be sustained by the courts, where the issue is now being contested, the sum total of these two items must be added to the cash balance shown by this Report, and in such event the total cash balance will be \$99,555.62.

The statement of the Educational Fund shows an excess of disbursements over receipts of \$2,041.98. This condition was created by the State Board of Education in apportioning to the public schools the uninvested assets of the Fund. An apportionment of nine cents per capita was thought desirable and decided upon, and to realize a sum sufficient to effect such an apportionment, it was necessary to anticipate a nominal amount of the receipts from the interest on the invested assets of the Fund, which receipts, it was judged, would be realized before the return of all the warrants, distributing the amount apportioned, to the Treasury Department for payment.

In Statement 1, of Part Two, it will be noted that dogs are reported by some counties as subjects for *ad valorem* taxation. It may be proper to remark here, for future reference, that this species of personal property is not a subject of general taxation in this State. Provision is made by Section 2502, of The Code, for voluntary dog tax, the purpose being to constitute a "tax paid" dog a subject of larceny. The tax, however, is arbitrary and specific in amount per dog, and the entire proceeds of such tax can be properly applied to the common school fund only. The irregularity appears in this report as a consequence of accepted returns from various counties found in this office by the present administration.

The account of "Contingencies" shows an aggregate expenditure of \$43,886.31, more than one-fourth of which is chargeable to the month of December, 1896. Nothing in the way of captious criticism is intended here by the suggestion that there appears to have been a lack of necessary discrimination in the classification of items which go to make up the Contingent expense account. It is evident that a greater degree of perspicuity and convenience can be attained by the introduction of additional accounts, and a more extended classification of items than has heretofore been observed. It has been impracticable, however, to incorporate any change into the primitive system for the year covered by this Report; for the fiscal year was begun and continued by the former administration

for a month and a half. With the incoming of the new administration, the General Assembly was in session, and the exactions of that body on the time of the Department precluded the possibility of giving attention to minor details of the Office. When the General Assembly adjourned, the system of classifying and keeping the Contingent account, as shown by this Report, had been continued for nearly four months, and an effort to introduce any new classification at that time would have proven more confusing than beneficial.

TAXABLE VALUES.

The total aggregate taxable value of all property in the State subject to taxation was, according to the State Auditor's Report of 1896, \$257,437,227.99. The total aggregate value of such property is shown, by this Report, to be \$259,011,508.23—a net increase of \$1,574,280.24. Comparative figures of the two reports are as follows:

1896. Value of real and personal property	\$230,861,131.00	
1897. Value of real and personal property	229,854,409.00	
Decrease in value from 1896.....		\$1,006,722.00
1896. Value of railroad, telegraph, steamboat and canal property.....	26,576,096.99	
1897. Value of railroad, telegraph, steamboat and canal property.....	29,157,099.23	
Increase in value over 1896.....		2,581,002.24
Net increase over 1896.....		1,574,280.24

According to former reports of this Department, it appears that the real and personal property of the State has been gradually decreasing in taxable value for the past five years.

The Report of 1891, covering the tax returns of 1890, shows the aggregate taxable value of real and personal property to have been \$242,449,891. The current Report (1897) covering the tax returns of 1896, shows the aggregate taxable value of the same kind of property to be \$229,854,499. The decrease in value, therefore, from 1890 to 1896, is \$12,595,392. At the present rate of taxation, this decrease in the taxable value of

real and personal property involves a revenue loss to the State fund of \$26,000, and to the public school fund of \$22,000, in round numbers. As compared with the Auditor's Report of 1896, covering tax returns of 1895, this Report, covering the tax returns of 1896, shows a decrease in the taxable value of real and personal property of \$1,006,722.

The course of declination in taxable values, here shown, has been persisted in since 1891, notwithstanding the well-known fact that there has been an appreciable augmentation of business investments, factory building, municipal improvements, etc. There must be causes for such conditions, and these causes must be discovered and dealt with before any rational effort can be made to prevent a further decline in values.

Doubtless that period of acute business depression known as the "Panic of 1893," had much to do with the impairment of values, and the impetus of that period is probably felt up to this time in estimating the taxable value of property. Whatever adverse influence such a cause as that may have on taxable values, must ordinarily be submitted to by a State, with a knowledge that it, alone, can prescribe no remedy.

But there may be causes with which the State can deal effectively, and among them may be reckoned the flagrantly apparent carelessness and incapacity of a considerable number of those to whom is entrusted the work and duty of primarily listing property for taxation. A statement of fact cannot be violated in asserting that too often a list-taker is a man who "gets a little job," rather than a man who is qualified for this very important work of the State. The general consequence is an irregularity in the annual returns of tangible and immovable property that is astonishing. For illustration, it may be stated that the minimum number of acres of land listed in any one year during the past ten years was 27,287,466 acres; this was in 1891. The maximum number of acres listed in any one year during the past ten years was 28,715,324; this was in 1888. These figures show a difference of 1,427,858 acres between the listing of one year and the listing of another. It is impossible

that land can get up and walk out of the State during the term for tax listing in one year, and show itself for listing another year. It is therefore evident that there is some looseness in the system of listing now observed, or some laxity or incompetency on the part of those charged with the duty of primarily making up the tax list.

The irregularities in listing of course begin in the counties, and it may be interesting to note some illustrations as to the differences that have occurred there. In doing this, note will be taken of the returns for the last five years, viz: 1893; 1894, 1895, 1896 and 1897. For instance, one county (Alamance) returned for taxation in 1893, 234,000 acres; in 1894, 231,000 acres; in 1895, 235,000 acres; in 1896, 265,000 acres; in 1897, 262,505 acres, thus showing a difference between one year and another, during the past five years, of 34,000 acres in that county.

The following table will further illustrate this irregularity:

County.	1893, No. Acres.	1894, No. Acres.	1895, No. Acres.	1896, No. Acres.	1897, No. Acres.
Cumberland	508, 178	492, 784	484, 586	483, 402	514, 748
Buncombe	420, 205	361, 533	369, 769	381, 288	365, 356
Henderson	192, 197	240, 411	202, 135	260, 669	220, 847
Brunswick	399, 782	339, 682	344, 463	388, 255	391, 363
Cherokee	309, 854	264, 351	278, 610	322, 527	292, 111
Halifax	415, 002	407, 900	353, 432	414, 443	406, 549
Mitchell	215, 808	193, 352	251, 191	238, 018	176, 693
Person	229, 504	216, 751	230, 467	239, 179	226, 889

Similar instances could be cited from nearly every county, but these will serve to illustrate the fact that something in the system of listing needs looking after. Only one county (Tyrrell) in the State during the past five years has returned a uniform number of acres of land for taxation every year.

If such irregularities as are here pointed out can occur under the existing system with property which is always visible and stationary, and with records that ought to make it easy to account for any change involving a decrease or increase, is it not reasonable to suppose that much greater irregularities can

occur and will occur in connection with property that is not visible—such property as franchises, stocks, mortgages, notes, money and other personal property?

A note of the difference in the returns, by some counties, of a species of invisible property may be interesting here. Take, for example, the item of "Stock in Incorporated Companies." It is not difficult to understand that this kind of property might easily increase or decrease in various counties by transfer from one to another, or a transfer out of the State altogether. But some illustrations of fluctuation may be given which appear abnormal, even after granting a wide latitude for business interchange. The table below presents some debatable variations:

County.	1893. Stock, etc.	1894. Stock, etc.	1895. Stock, etc.	1896, Stock, etc.	1897, Stock, etc.
Cabarrus	\$99,000	\$103,000	\$81,000	\$31,000	\$30,811
Guilford	93,000	42,000	9,000	78,000	13,725
Forsyth	50,000	140,000	32,000	18,000	267,579
Rowan	444,000	42,000	16,000	299,000	12,685
Durham	265,000	101,000	1,028,000	1,344,000	1,410,000
New Hanover	195,425	37,937	114,508	67,650	10,200
Catawba	30,779	40,804	21,817	2,296	4,709

It can be admitted that a county might report no stock of this kind at all, say in 1894, and report a large amount in a subsequent year; for the completion of large manufacturing concerns or the organization of large stock syndicates is possible from one year to another; but it is rather singular for a county to report half a million dollars worth of stock, say in 1893, and while not suffering the loss of any factory or stock company, report but little over ten thousand dollars in 1894, and then in 1895 strike around the half million dollar mark again. This may be an actually possible condition, but it is reasonable to suppose that these differences in returns in this State are much more largely due to the system of listing than to any annual going out and coming in of the stock itself.

A partial remedy for such discrepancies in returns as are above indicated rests with the Board of County Commissioners

of each county. The Board is empowered and required by law to select list-takers each year whose duty it is to return an abstract of the property in certain territory for taxation. If the various county boards could summon the courage and acquire the determination to select competent men for this duty, immense benefit would accrue to both county and State. The selection of competent men involves compensation for effective effort. It is not a very usual thing to see men capable of doing good and thorough work rendering their services for merely nominal recompense. Public service should always be procured with due regard for economy, but such economy only as can command efficient public service. Such efficiency as is necessary to so important a work as list-taking can seldom be commanded for a "public salary" of one or two dollars per day. Patriotism does not necessarily extend to an exclusive rendition of the best service, in public business, for any length of time for a poor remuneration.

COMPARATIVE OBSERVATIONS.

The receipts of the Public Fund for the year ending November 30th, 1896, were \$1,259,458.40. The receipts for the year ending November 30th, 1897, were \$1,292,547.67—an increase over 1896 of \$33,089.27.

The disbursements for the year 1896 were \$1,244,917.57. The disbursements for 1897 were \$1,303,904.11—an increase over 1896 of \$58,986.54. The fact that the expenses of a session of the General Assembly are included in the disbursements for 1897 accounts for the increased expenditure.

The revenue receipts from real and personal property were \$2,181.03 less in 1897 than in 1896; but the revenue derived under Schedules "B" and "C", known as privilege taxes, for 1897, exceed the receipts of 1896, from the same sources, by \$17,337.72.

The most notable increase of revenue from any one source for 1897, over the previous year, is in the returns of collections made by the Secretary of State. The excess of receipts through that Department, over 1896, amounts to \$30,739.83.

The revenue from railroad property exceeds the receipts of 1896 by \$5,030.43.

A change in the license tax schedule on piano and organ dealers by the General Assembly of 1897 has caused a loss of \$1,300.00 from that source. The receipts in 1896 were \$1,750.00; in 1897, \$450.00.

There is an increase of \$1,607.05 from telegraph and telephone companies, the tax being two per cent on gross receipts.

The increase of revenue from tax on incomes is \$730.02. The gross amount of incomes returned for taxation for 1896 is \$630,624. The gross amount of incomes returned for the previous year was \$550,893.

Circuses and menageries yielded for the year 1897 an increase of \$1,366.50 over 1896.

The receipts from "Merchants' Purchase Tax" shows an increase of \$2,822.54.

There is an increase of \$1,505.00 from lawyers, physicians and dentists over the previous year.

White polls increase from 171,915 to 172,281, while colored polls show the small increase between 65,697 and 65,740.

PENSIONS.

During the year 1897 a very large number of applications for pensions were filed in this Department. It must be said that the general presentations made in these applications are of such a character as to make it difficult, in most cases, to satisfactorily determine whether the applicant is legally entitled to such pension as the State can pay or not. There is no rashness in asserting that there are those now on the State pension roll, who are neither morally nor legally entitled to the aid they are receiving from the State, and it may be reasonably supposed that there are those who have applied for pensions, not on the roll, on account of some defect in the applications as filed, who richly deserve all that the State can offer them.

There was a net increase of 58 pensioners during the year 1897. Full particulars of the pension list are given in Statement J, pages 206-208.

A brief history of the pension legislation of the State is introduced here for future reference, and is as follows:

In 1876 the General Assembly enacted a law providing for the payment of \$60 per annum to such Confederate soldiers as had lost their sight, or both hands, or both feet, while engaged in the service of the Confederacy; also providing commutation in a limited way for lost limbs. This act remained in force for four years, during which time an aggregate of \$6,000 was paid out for the purposes specified. The average annual expenditure was \$1,500, paid to an average of twenty-five soldiers, who received \$60 each per annum.

In 1883 the Act referred to above was amended so as to make the annual appropriation to each totally disabled soldier \$120 per annum. For the fifteen years (including 1897) during which this Act has been in force, there has been paid out under its provisions an aggregate sum of \$63,000. The annual average expenditure has been \$4,200, paid to an annual average of thirty-five soldiers, who received \$120 each per annum. In addition to this the amount paid out for commutation of lost limbs under the above named Acts aggregates \$2,323.

In 1885 the General Assembly passed an Act appropriating a sum not exceeding \$30,000 per annum, as a pension fund to be paid to soldiers who were wounded or disabled while in the Confederate service, and to the widows of soldiers. This Act remained in force five years, during which time the aggregate sum of \$149,803.46 was disbursed for pensions. The average annual disbursement was \$29,860.69, distributed among an annual average of 3,083 pensioners. The average amount received by each pensioner was \$9.84 per annum.

In 1889 the existing pension law was repealed, and one substituted levying a special tax on general and personal property for the purpose of creating a larger pension fund. This law provided for the classification of pensioners as follows:

First Class: Such as received a wound rendering them totally incompetent to perform manual labor.

Second Class: Such as lost a leg above the knee or an arm above the elbow.

Third Class: Such as lost a limb below the knee or below the elbow.

Fourth Class: Such as lost one eye or were otherwise disabled.

Provision was made by this Act for pensioning widows of Confederate soldiers who died in consequence of wounds received while in Confederate service, or in consequence of disease contracted while in said service. Widows are rated as fourth-class pensioners. The purpose of the Act was to pay the following annual rate of pensions:

First Class	\$100.00
Second Class	75.00
Third Class	50.00
Fourth Class	25.00
Widows	25.00

But it is provided that in case a sufficient sum is not realized to pay the amount specified to each class, such amount as may be realized shall be paid pro rata. At no time has the full amount intended for each class been paid. The general average has been about as follows:

First Class	\$60.00
Second Class	45.00
Third Class	30.00
Fourth Class	15.00

For the nine years during which this Act has been in force, there has been an aggregate expenditure, under its provisions, of \$766,113.05. The annual average expenditure has been \$95,139.13. The annual average number of pensioners has been 4,878, and the average annual amount received by each pensioner has been \$19.50. This low average is a consequence of the numerical predominance of soldiers of the fourth class, and of widows.

SUMMARY.

Disbursed under Act of 1879	\$ 6,000.00
Disbursed under Act of 1883	62,000.00
Disbursed for commutation under above Acts	2,228.00
Disbursed under Act of 1885	149,303.46
Disbursed under Act of 1889 and amendments thereto	766,113.05
Total	<u>\$985,639.51</u>

The State Pension Roll for 1897 shows the number of pensioners of each class to be as follows:

Special (Act 1883)	37
First Class	123
Second Class	246
Third Class	363
Fourth Class	1,910
Widows	<u>2,741</u>
Total	5,420

BUILDING AND LOAN ASSOCIATIONS.

The substantial and beneficent features of Building and Loan Associations do not appear to have found general lodgment in the permanent appreciation of the citizens of this State, or such associations do not appear to regard the attitude of the State as favorable to them. At one time there were sixty organizations of this character operating in North Carolina. This Report shows that thirty-four companies were licensed to do business in 1896. Of this number, six are foreign companies. These, as well as the twenty-eight State companies, exhibit evidences of soundness and stability.

For any measure of success which may attach to the work of this Department for the past year, credit is more largely due to Mr. John A. Sims, the painstaking and efficient Chief Clerk, than to any other.

The grateful acknowledgements of this Department are extended to many county officers for their generous co-operation in facilitating its work. In almost every instance in which suggestions have been offered and information asked, there have been effective attention and prompt reply. This co-operation is especially credited with the increase of public revenue from Schedules "B" and "C," heretofore referred to.

And now I desire to express to you, Governor, my cordial thanks and unreserved appreciation for the courtesy always shown me, and for the invaluable assistance readily given at all times when such assistance was asked of you in connection with the discharge of the duties of this office; and I am, Sir,

Yours most respectfully,

HAL. W. AYER,
Auditor.

BONDED INDEBTEDNESS AND INVESTMENTS.

Statement showing the bonded indebtedness of the State, also the investments of both the General and Educational Fund.

BONDED INDEBTEDNESS.

STATEMENT 7.

SHOWING THE ASSESSMENT OF THE PROPERTY OF RAILROAD, TELEGRAPH,
STEAMBOAT AND CANAL COMPANIES, BY THE RAILROAD COM-
MISSION, FOR THE YEAR 1897.

The Railroad Commissioners, in accordance with Sections 42 to 50 inclusive, of Chapter 169, Laws of 1897, constituting the Board of Railroad Commissioners a Board of Appraisers and Assessors, for Railroad, Telegraph, Steamboat, and Canal Companies, assess the value of road-bed, right-of-way, depot buildings and grounds, used for railroad purposes thereon, both main and side-track, rolling-stock, and other property, and franchises of the various roads in the State, and also the different telegraph and steamboat companies, as follows :
